

## Switch and enhance your career through the online Post-Graduate Diploma in Library and Information Science at Unisa's Department of Information Science

The overarching purpose of the qualification is to train graduates from other disciplines wishing to obtain a post graduate specialised qualification in library and information Science.

### Content

The qualification consists of six modules accounting for a total of 120 credits on NQF level 8.

- ICT Applications in Library and Information Services
- Management of Knowledge and Information Services
- Information Users and Use
- Library and Information Practice
- Research Methodology in Information Science
- Descriptive Cataloguing and Classification

### Eligibility

Candidates need to have a Bachelor's degree from any other field, or a BTech in another field outside the field of Library and Information Science.

Candidates who hold a Bachelor's degree or a BTech in Library and Information Science as a major may not be considered for the PGDLIS, but should rather register for the Honours in Information Science.

### Application for admission

The applications for admission will open in August. All applications for admission should be made online at [www.unisa.ac.za](http://www.unisa.ac.za)

### Duration of the study

The PGDLIS is a one year qualification but can take longer if the student studies on part-time.

### Mode of delivery

The PGDLIS will be offered through a blended mode and as such students are advised to have access to the Internet
