Department of Education

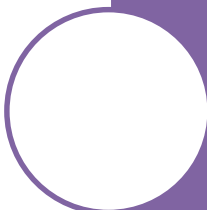

KZNDOE MESSAGE OF SUPPORT

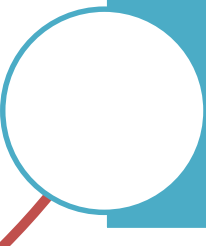

The Department prioritises libraries as indispensable and non-negotiable facilities for teaching and learning.

Several researchers show a strong correlation between academic performance and libraries.

All learners must have access to libraries regardless of their diverse backgrounds that can be defined by poverty, race, religion, or otherwise.

Libraries and literacies are intertwined. Libraries create a culture of reading. They are the cornerstone to accessing information which is mainly in books i.e. print and electronic.
